The mmmmmmmmmmm good bedtime story

Once upon the face of Mother Earth
Pterodachtyls shat from aloft.
A gentle shrug of her aged crust
And pterodachtyls shat no more.

Fuzzy, wuzzy, feathered and slithery
Creatures clawed and pawed and pecked
Consuming plumage, padding softly, keeping peace
With Mother Earth

She fed them nectar from her breast
then took them back into her womb.
She let them play upon her softly,
Tucked them inside at beddy-bye time.

With a KaBam, SheBoom, Raaa ta ta ta
Bawhooooooooommm, Kapow, Budda Budda Budda
Boooooooooommm.
And a poot.
Mother Earth carried her
New-born child for
 at least
 a million
 ticky tocks
 of the
 cuckoo clock.

The flowers' noggin nods so softly
Nudged by gentle breezes.
With a golden kiss
The bright sun ball
Beams warm pleasure
On his dame.
Hand in hand
Lovers stroll
upon the face of Mother Earth
Spinning, swirling, dancing sweetly
The maiden bathes in his warm gaze.
The wind's song whispers of the courtship.
Oceans throb with each embrace.
Hand in hand lovers
Touch upon the face
of Mother Earth
The dazzling maiden in all her jewelry
feeds the young ones from her breast.
Babes born daily
weep for hunger
joy and sorrow
daily bread
Play now, children
nestle softly
When old clouds hold
Mamma's tears

Phi Kappa Phi is the nation's top general academic honorary society. The N. C. State Chapter was founded in 1923 and has 153 active members with another 145 inactive members. This year the NCSU chapter initiated 11 faculty, 60 graduate students, 124 seniors, 58 juniors and 9 alumni for outstanding scholarly achievement. Since the society was founded in 1900, it has grown to 108 chapters on leading U.S. college and university campuses and has initiated some 200,000 persons in the past 70 years. As an honor society, Phi Kappa Phi has the distinction of recognizing all modern branches of higher learning including the technologies.

ETA KAPPA NU

The Mechanical Engineering curriculum at NCSU provides the foundation upon which a rewarding and competent engineering career can be built. The N.C. State University chapter of the American Society of Mechanical Engineers complements this intensive technical training by involving the student member in activities which will broaden his engineering education and introduce him to "real world engineering" in industrial applications.

Regular activities of the chapter include monthly business meetings and weekly luncheons which feature interesting speakers from industry and the academic community. Educational trips to manufacturing facilities and electric power plants are also popular activities of the local chapter. An occasional party and the awarding of the "Purple Shaft Award" to a deserving faculty member round out the local activities for the year.

SOCIETY OF AFRO-AMERICAN CULTURE

JOINT TREATY OF PEACE BETWEEN THE PEOPLE OF THE UNITED STATES, SOUTH VIETNAM AND NORTH VIETNAM

Be it known that the American and Vietnamese people are not enemies. The war is carried out in the names of the people of the United States and South Vietnam but without our consent. It destroys the land and people of Vietnam. It drains America of its resources, its youth and its honor.

We hereby agree to end the war on the following terms, so that both peoples can live under the joy of independence and can devote themselves to building a society based on human equality and respect for the earth.

The Americans agree to the immediate and total withdrawal of all U.S. forces from Vietnam.

The Vietnamese pledge that as soon as the U.S. government publicly sets a date for total withdrawal:

They will enter discussions to secure the release of all American prisoners, including pilots captured while bombing North Vietnam.

There will be an immediate cease-fire between U.S. forces and those led by the Provisional Revolutionary Government of South Vietnam.

They will enter discussions on the procedures to guarantee the safety of all withdrawing troops.

The Americans pledge to end the imposition of Thieu-Ky-Khiem on the people of South Vietnam in order to insure their right to self-determination and so that all political prisoners can be released.

The Vietnamese pledge to form a provisional coalition government to organize democratic elections. All parties agree to respect the results of elections in which all South Vietnamese can participate freely without the presence of any foreign troops.

The South Vietnamese pledge to enter discussion of procedures to guarantee the safety and political freedom of those South Vietnamese who have collaborated with the U.S. or with the U.S.-supported regime.

The Americans and Vietnamese agree to respect the independence, peace and neutrality of Laos and Cambodia in accord with the 1954 and 1962 Geneva conventions and not to interfere in the internal affairs of these two countries.

Upon these points of agreement, we pledge to end the war and resolve all other questions in the spirit of self-determination and mutual respect for the independence and political freedom of the people of Vietnam and the United States.

By ratifying this agreement, we pledge to take whatever actions are appropriate to implement the terms of this joint Treaty and to insure its acceptance by the government of the United States.

Circle K is a men's service organization. The objective of Circle K International is to provide college men with a means by which those students interested in helping others and being of service in society can express this concern. Our motto is **WE BUILD**, and in practice that means genuinely constructive involvement in the community and on campus. A partial list of recent projects of the State club includes: work at Camp Kiwanis; a Halloween party for orphans; constructing lecturns for professors; the construction of a "poor kids" playground in Zebulon; and ushering at the N. C. State Fair.
